

Academic Regulations for B.Tech and M.Tech Programmes

Document ID	ACAD-REG-2024
Version	3.1
Issuer	Office of the Dean (Academics)
Authority level	1 (Academic Regulations)
Effective from	1 July 2024
Applies to	B.Tech and M.Tech programmes; admission batches 2023 and later
Replaces	ACAD-REG-2021 (for batches 2023 and later)
Status	SYNTHETIC document created for hackathon testing. Not an official university document.

1. Short title, scope and applicability

- 1.1 These regulations are called the Academic Regulations for B.Tech and M.Tech Programmes, Version 3.1 (ACAD-REG-2024).
- 1.2 They apply to all students of the B.Tech and M.Tech programmes admitted in the year 2023 or later and come into force on 1 July 2024.
- 1.3 Students admitted before 2023 continue to be governed by ACAD-REG-2021.

2. Definitions

- 2.1 **Course** means a unit of instruction carrying a course code, a fixed number of credits and a semester.
- 2.2 **Active backlog** means a course in which the latest result of the student is FAIL or ABSENT and which has not since been cleared.
- 2.3 **Regular examination** means the end-semester examination held when a course is first offered. **Supplementary examination** means the later examination offered to students who did not clear a course in the regular examination.
- 2.4 **Attendance percentage** of a student in a course is (classes attended divided by classes held) multiplied by 100, computed course-wise up to the last teaching day. Attendance percentage is **not rounded off**; for example, 74.9 percent is below 75 percent.

3. Academic structure

- 3.1 The B.Tech programme has eight semesters and the M.Tech programme has four semesters.
- 3.2 Each course carries between one and four credits. The credits of a course are published in the programme scheme.

4. Evaluation scheme and passing marks

- 4.1 Each theory course is evaluated for 100 marks, made up of 40 marks of internal assessment and 60 marks of end-semester (external) examination. Total marks equal internal marks plus external marks.

- 4.2 B.Tech.** A student passes a course if total marks are at least 40 out of 100 and external marks are at least 24 out of 60.
- 4.3 M.Tech.** A student passes a course if total marks are at least 50 out of 100 and external marks are at least 30 out of 60.
- 4.4** A student who is eligible but does not appear in the end-semester examination is recorded as ABSENT. ABSENT is treated as a failure in that course for that examination session.
- 4.5** The result recorded for a course is one of PASS, FAIL, ABSENT or DETAINED. DETAINED is recorded under clause 7.3.

5. Grading

5.1 Letter grades and grade points are awarded on total marks as shown in Table 1.

Table 1: Grade table (marks out of 100)

Total marks	Grade	Grade points
90 to 100	O	10
80 to 89	A+	9
70 to 79	A	8
60 to 69	B+	7
50 to 59	B	6
45 to 49	C	5
40 to 44	P	4
Below 40 (fail)	F	0

6. Computation of CGPA

- 6.1** CGPA is the sum of (credits multiplied by grade points) over all courses passed, divided by the sum of credits of those courses, rounded to two decimal places.
- 6.2** Courses in which the student has not passed are excluded from the CGPA until they are cleared.

7. Attendance requirements

- 7.1 Minimum attendance.** To be eligible to appear in the end-semester examination of a course, a student must have attendance of at least **75 percent** in that course (B.Tech) or at least **80 percent** in that course (M.Tech), subject to clauses 7.2 and 7.4.
- 7.2 Condonation of shortage.** Where attendance in a course is **65 percent or more** but below the minimum in clause 7.1, the Dean (Academics) may condone the shortage on documented medical or other approved grounds, on payment of the condonation fee in Table 2. A B.Tech student may be granted condonation at most twice during the programme.
- 7.3 Detention.** Attendance below 65 percent cannot be condoned. The student is recorded as DETAINED in that course, may not appear in its end-semester examination and must repeat the course when it is next offered.
- 7.4 Restriction.** Condonation under clause 7.2 shall not be granted to a student who has more than 4 active backlogs at the time of application.

7.5 Attendance is recorded by the course faculty and published on the student portal at the end of every month.

8. Detention and promotion

8.1 A student detained in a course under clause 7.3 shall attend that course again with the next batch as a regular student.

8.2 A student who has more than 4 active backlogs at the end of an academic year shall not be promoted to the next academic year until the number of active backlogs is reduced to 4 or fewer.

9. Supplementary examinations

9.1 Eligibility. A student is eligible to appear in the supplementary examination of a course if both of the following are true:

- (a) the result of the student in the regular examination of that course is FAIL or ABSENT; and
- (b) the student met the attendance requirement of clause 7.1 for that course, or was granted condonation under clause 7.2.

9.2 A student whose result in a course is DETAINED is not eligible for the supplementary examination of that course (see clause 7.3).

9.3 A student may make at most two supplementary attempts in a course.

9.4 Only the external component is re-taken. Internal marks are carried forward, and total marks equal the carried-forward internal marks plus the new external marks.

9.5 Application procedure. A student who wishes to appear in a supplementary examination shall:

- (a) log in to the examination portal using the student ID;
- (b) select the courses to be re-attempted from the list of eligible courses;
- (c) pay the supplementary examination fee given in Table 2 for each selected course;
- (d) submit the application within **7 days** of the declaration of results; a late application is accepted for a further **3 days** on payment of the late fee in Table 2, and no application is accepted after that; and
- (e) download and keep the acknowledgement.

9.6 Hall tickets for supplementary examinations are issued only after payment of fees is confirmed.

Table 2: Fees (in Indian Rupees)

Fee	B.Tech	M.Tech
Supplementary examination fee, per course	Rs. 1500	Rs. 2000
Late fee, per application (clause 9.5(d))	Rs. 500	Rs. 500
Condonation fee, per course (clause 7.2)	Rs. 1000	Rs. 1000

10. Eligibility for campus placement

10.1 A student is eligible to register for campus placement if both of the following are true on the date of registration: (a) CGPA is at least **6.00** (B.Tech) or at least **6.50** (M.Tech), based on the latest declared results; and (b) the student has **zero active backlogs**.

10.2 A backlog cleared in a supplementary examination counts as cleared only if the result was declared on or before the closing date of placement registration. Results declared later do not count for that

registration.

10.3 CGPA for clause 10.1 is computed under clause 6 and is not rounded up to meet the cut-off.

11. Amendment and interpretation

11.1 The Academic Council may amend any clause of these regulations by a circular issued by the Dean (Academics) or the Controller of Examinations. A circular takes effect from the date stated in it and applies only to the programmes and batches named in it.

11.2 In matters of interpretation, the decision of the Dean (Academics) is final.

12. Repeal and savings

12.1 ACAD-REG-2021 stands repealed for students admitted in 2023 or later. Anything done under ACAD-REG-2021 before 1 July 2024 remains valid.
